RF Microneedling Machine

RF Microneedling

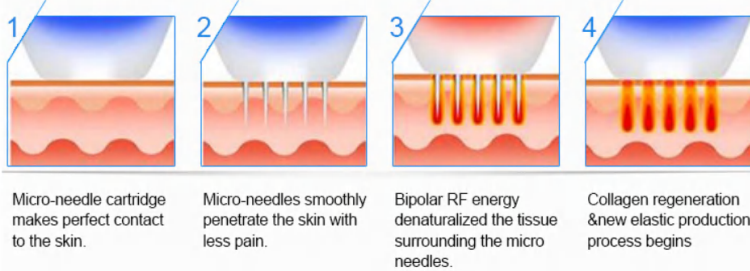

- ✔ Because the needle has no isolation plate, it can be treated in the same way as the epidermis and dermis.
- ✔ Different from the existing solenoid type, the needle inserted into the skin is gentle, does not cause any impact, and has less postoperative bleeding and pain.

- *Wrinkle removal*
- *Facial rejuvenation*
- *Stretch marks*
- *Large pores*
- *Acne scars*
- *Underarm odour*

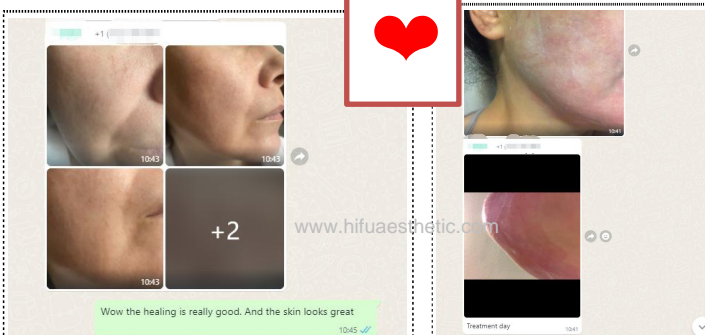

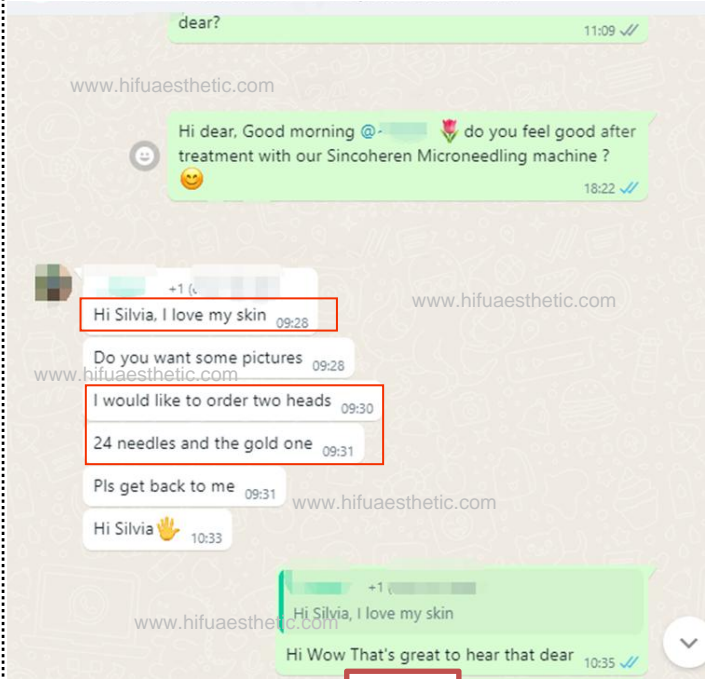

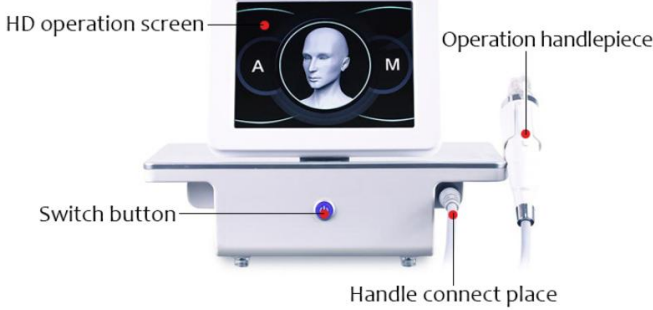

Principle

The radio frequency (the electromagnetic waves with a frequency range of 300KHz~300GHz) causes the water molecules in the skin tissue to oscillate at high speed instantly to generate heat energy (45-55°C), heating the deep skin tissue, stimulates collagen contraction, and promotes new collagen growth.

Applications

- **Wrinkle removal**
- **Facial rejuvenation**
- **Stretch marks**
- **Large pores**
- **Acne scars**

Believe us, we won't let you down.
