## A real story about a body sculpting device

Our customer Rose is a beauty salon owner who often purchases beauty devices with local brands to expand her business, but the prices of local brands are expensive and the after-sales service is poor, which cause the loss of customers and her business becomes poor. Fortunately, she looked through the information about Karim on social media and knew that he sells body sculpting devices. At this time, she is interested in one body sliming machine that is combined with the technology of RF (radio frequency), IR(Infrared), Vaccum pressure and Mechancial massage. Additionally, She knows well of the fact which is Karim works as a medical beauty manufacturer from China and the function of the body sculpting devices he sells is just what she expected.

### New Upgrade Kuma Shape Pro Machine (IR+RF+US+Negative pressure +Mechanical massage)

Rose had never imported devices from China before so that she was worried about the quality of Chinese instruments. However, through the professional and complete services from Karim, she decided to have a try to talk to Karim about the machine and finally she made this order.

Ok dear. I will let you know when we received your payment

Karim, I am very satisfied and pleasantly surprised by Kuma Shape. It really works much better. Thank you.

Can you send me some promotional pictures of Kuma Shape that I can use for a presentation on my facebook
